		§	(U01-165196C/KK)
Title:	JOINT TO BE ADHERED TO NYLON RESIN MOLDINGS		

PRELIMINARY COMMUNICATION

The above identified continuation application being filed herewith is being filed to correct inventorship of the parent Application No. 09/972,224, in accordance with MPEP § 201.03. Thus, just prior to receiving the first Office Action in the parent application, it was discovered that an inventor of some of the claims had inadvertently been omitted in the parent application. This additional inventor is now included in the Declaration for this continuation application, and each of the inventors is an inventor for at least one of the present claims.

In addition, the claims in the present application correspond to the allowed and objected to claims in the Office Action dated June 26, 2003 (paper No. 5) in co-pending parent Application 09/972,224. Thus, claim 1 corresponds to objected claim 5 of the parent application (rewritten in independent form to incorporate claim 3); claims 2-6 correspond to claims 4, 6-8 and 10 of the parent application (rewritten to depend from present claim 1); present claims 7-9 correspond to allowed claims 11-13 of the parent application; claim 10 corresponds to objected to claim 16 of the parent application (rewritten in independent form to incorporate claims 14 and 15); present claims 11-13 correspond to allowed claims 18-20 of the parent application; present claim 14 corresponds to objected to claim 9 of the parent application (incorporating the subject matter of claim 3); and claim 15 of the present applications corresponds to objected to claim 17 of the parent application (rewritten in independent form to incorporate claim 14).

Accordingly, all of the claims in the application are fully supported by the original claims and are in full condition for allowance. An early examination and allowance of this application are therefore respectfully solicited.

Respectfully submitted,

Noriyuki ISOBE, et al.

December 22, 2003
